

# *BLUE ZAMBEZI GRANITE*

## STANDARD PRODUCTS

*"BLUE ZAMBEZI" Granite* is easily available in any type of products, from raw blocks to Finished standard and cut-to size products:

- Raw blocks (2 to 5 cm)
- Slabs
- Calibrated tiles (honed, polished, flamed) of any size and thickness
- Thick slabs and other cut-to-size products

*"BLUE ZAMBEZI" Granite* is a new attractive Blue granite, extracted in Africa, with large potential in terms of reserves and market.

It's a Sodalite bearing granite, medium grain, with exceptional regular texture and colour pattern

*"BLUE ZAMBEZI" Granite* is the first real competitor of the famous Brazilian Blue Bahia Granite, in terms of aesthetic and mechanical features and price.

*"BLUE ZAMBEZI" Granite*, very appreciated by many architects and interior designers, can be used for any type of cladding and flooring projects, indoor and outdoor, and also for making tops, tables, stairs and other cut-to-size and internal decoration products.
